

FOR IMMEDIATE RELEASE

## Caribbean Accounting & Tax Consultants reaches out to Helping Hand Foundation

**ORANJESTAD** – On Saturday, December 6<sup>th</sup>, at a special event at the Caribbean Accounting & Tax Consultants (CATC) building, CATC representatives Sandy Odor and Roxanne van Dinter presented Helping Hand Foundation founders Mr. Rocco Tjon and Giancarlo Croes, with a donation of 75 food baskets. The generous donation was a results of a collaborative effort of CATC and various companies on a mission to offering a helping hand to children in less fortunate circumstances.

CATC is thrilled to be able to help in any way we can. This is a significant increase from last year's donation of 50 baskets. It is unfortunate because this indicates that there has subsequently been an increase in economic hardship among young children this year that the foundation supports. Nevertheless, CATC has risen to the task to achieve the goals set.

Helping Hand Foundation, founded on May 30<sup>th</sup> 2013, believes that circumstances should not define nor limit any child. With this belief in mind the foundation strives to stand up for the general and social interest of less fortunate children of Aruba between the ages of 9 and 12 years. Every child no matter their financial circumstances, should have the chance to dream BIG and aim as high as possible in life.

Of course, none of this could be possible without the great enthusiasm from the employees at CATC and collaboration with the following companies: Aruba Wine & Dine, Metacorp, Garage Cordia and Caribbean Overseas Ltd. Thank you all.

CATC provides accounting, legal, tax and advisory services to small and medium enterprises. It is CATC's mission to better serve the Aruban community. In doing so, "We want to be the best regional financial services provider by investing in our employees and creating extraordinary value for our clients." The company, founded on this principle continues to actively improve the well-being of all citizens; individuals and businesses alike. Through paying attention to the needs of our community, we are in a better position to provide customized services that facilitate the lives of those we work with.

These are tough times. Help make them especially easier for our children. Enriching the lives of children in every way possible is everyone's job.
